QUIZAS, QUIZAS, QUIZAS…

The romantic outdoor sofa Quizas, quizas, quizas… is inspired by the eternal game of the seduction.

Like the song and the rhythm of bolero, this furniture element transports you to a garden with the loved person, where you could take a relax breakfast or enjoy a cup of tea while watching the sunset.

The enveloping and comfortable shapes protect and embrace, creating an intimate space where you can expect calm and rest in solitude or enjoy a pleasant conversation. At the same time, the semi transparent finish allows you to live and integrate in the enviroment, - creating a soft game of complicity between introspection and sharing too.

Through the net that filter the sunlight, you can enjoy the breeze and perfume of the garden.

With few modules, very easy to assemble, you can obtain several solutions: one seat, two seats, three seats, corners or sofas with unlimited lenght
